Come to this interactive event and explore the key features built into Apple products for students with special needs. You’ll see how iPad, iPod touch and Mac offer a rich set of accessibility features that can be customized to help diverse learners succeed.

• Discover the accessibility features included on every Mac and how they support a wide range of sensory and learning disabilities.
• Experience the accessibility features of iPad, and see how these tools can break down barriers to learning.
• Explore apps that can help students overcome individual learning hurdles.
• Get examples of how other institutions are successfully using Apple technology with special needs students.

Don’t miss this opportunity to learn how Apple devices are helping students with special needs learn and engage like never before.
